this game is truly amazing for the price. I dont always like puzzle games but this one is a huge acception. first off The story is amazing Second the movement is great and third the characters look cool. For two dollars it is great id even pay 9.99\$ for it! BUY IT.. This game was a bitter disapointment. I hoped for some managing of airplanes and airports but this is just clcking an airplane to move to the next segment. Futhermore it has only prebuild structures no real building aspect.. There are many positive things about this game ranging from its decent price, to its fun and easy to understand gameplay a few things which I hope they improve on are the low aircraft count *3 Aircraft per team + 2 Unlockable aircraft for each team to make 8 aircraft currently* The textures which I'm sure is only a limitation on the engine itself, and this is a personal gripe but I'd like to beable to zoom in abit closer to the screen

Then again this is all Early Access and it is absolutly Fabulous for an Early Access as well!. This one is a lot more fun and a lot harder than I thought it would be. It is a traditional heax-grid wargame, of course with elves and magical spells. But the time element in the story line means that you bot have to deal with opponents AND keep moving, and you are usually closely matched with what confronts you.. Really nice game. Wonderfully thick atmosphere and very original story. The music does a great job creating just the right feeling for every scene. There is alot more to the game than what you see at first glance. Definitley looking forward to the second playthrough. =). i need a friends to play with.

TERRIBLE GAME GLITCHY GRAPHICS MOVEMENT MAKES YOU FEEL SICK BORING GAMEPLAY DO NOT GIVE IT YOUR MONEY. Kickass soundtrack!. It takes 30-45 Minutes to beat. Im halfway at 25 Minutes. Fun time waster! Gets hard at the end! 9/10. Game was fun until server were online.
Get your servers up and it will be fine.. You cannot erase your saved game and re-start. 7W:AAM has no replay value. Had I know that I would not bought it.. A nice and simple child-friendly collectathon.

The game is relatively short, If you play to complete it as fast as possible you can beat 100% of the game in about 1.7 or 2 hours.

The gameplay is rather simple you move around the level with a top-down perspective and beat the occasional enemy, using your fiery breath to defeat them. Beating a level is really easy I've beaten the entire game without dying to an enemy once and feel that you could only fail if you do so intentionally.

When it comes to narrative the game is rather bare-bones and does not really do anything to establish any character motivation or personality, it's just; You are a dragon who likes to collect treasure. Why who knows.

You have a mystic floating panda fiend. Who is he? I don't know.

but this can be put down to the young audience that it is aimed at.

Playing through the game I found that it had nice and relaxing BGM that suited the rest of the overall look, tone and feel of the game.. Best game xd. If only patricia existed.....damn XD

anyways, i am so happy to play this game on steam,

i really love the soundtrack a lot!

the protagonist (she's very attractive to me lol) the voice actor for patricia,(which is stephanie komure), the backgrounds, the graphics, the cutscenes, and(strangely to me) the title screen

when i first played this game, the controls i had to get used to, cause i'm so used to playing video games with a control instead of using a mouse to move the blocks, (i'm more of a console gamer than a pc gamer, enen though there is a mobile version of this game, but the pc version is a little better to me due to the fact you dont have to pay for extra puzzles lol)

bottom line, this game rocks so much to me, any mighty switch force! game that comes out i'm definately gonna get them,

CAUSE THIS GUY RIGHT HERE...IS A BIG MIGHTY SWITCH FORCE! FAN :)

you rule jake kaufman, your the greatest video game composer of all time to me, and great job wayforward for developing another mighty switch force! game, keep it up wayforward :D

btw my personal rating of this game is 8/10
